SPILL: 16-1833, Sewage Spill, Bishop Paiute Tribal Lands, Inyo County

- On 03/24/16 at 1927 hours the California State Warning Center (CSWC) received a report from the Bishop Paiute Tribe in Inyo County of a sewage release, estimated at greater than 10,000 gallons with an unknown amount into Bishop Creek.
- This release was caused by a blockage in a mainline on tribal lands adjacent to Bishop City. The flow of the release into Bishop Creek has stopped.
- The Bishop Paiute Public Works Department will be conducting cleanup of the release with crews on scene attempting to clear the blockage, which is being assisted by a local vacuum truck.
- A trail leading from the Reservation to a school will be blocked off and signs posted due to the release, with an unknown time of re-opening. The Tribe advised there is apparently no impact to local drinking water by the release.
- The Cal OES Southern Duty Officer (SDO) contacted the Inyo County Director of Emergency Services at 2015 hours on 03/24/16 and provided the spill information.
- Inyo County Environmental Health was notified.
- There are no requests for assistance as of 0800 hours this morning, assessments are still in progress.
- The Operational Area (OA) will advise when they have further information.
- The Cal OES Tribal Liaison and SDO will continue to monitor this incident and provide updates as warranted.

Weather of Concern

Northern California

- Breezy north winds can be expected later today for portions of Northern California. Winds will decrease Saturday, but increase again Sunday.
- A cool weather system will bring some showers and cooler temperatures Sunday through midweek with a slight chance of northern Sacramento Valley thunderstorms Sunday.
- Early next week there is the possibility of additional light snow to the region.

Southern California

- For Central California, Surf of 8 to 11 feet will be possible, the highest surf can be expected along west to northwest facing beaches this afternoon through Saturday morning.
- For the Los Angeles County Mountains, there will be gusty north to northwest winds today. Winds will be 20 to 35 mph with gusts up to 55 mph and will continue through the morning, diminish some, then increase again late this afternoon.
 - The Interstate 5 corridor and Highway 14 will receive the strongest winds.
- A trough of low pressure originating from the Gulf of Alaska will move into the region early next week and bring a cooler, cloudier and unsettled weather pattern through much of next week.

Cal EOC Incident – 2014 Drought

SOC / Inland REOC remains activated in support of 2014 Drought.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Medford Weather:

An upper ridge will remain centered offshore today. Expect mainly dry conditions with only a chance or slight chance of light rain over northwest portions of the area. Precipitation Saturday night followed by showers and lowering snow levels on Sunday.

Eureka Weather:

High pressure will bring dry weather to the region on Friday with a chance for light rain returning this weekend. Temperatures will cool late this weekend through early next week as an upper trough slides overhead. This will be followed by stronger high pressure late next week for a period of pleasant weather.

Reno Weather:

Breezy northwest winds develop today with very minor cooling east of the Sierra. Winds decrease Saturday, but increase again Sunday. A colder low pressure system is looking more probable for early next week possibly bringing additional light snow to the region.

San Francisco Weather:

Slight warming trend expected into Saturday as high pressure builds into California. An upper low will move south towards the great basin and then will retrograde across California next week to bring cooler temperatures, breezy winds, and a slight chance of showers to the area.

Sacramento Weather:

Dry weather with daytime temperatures a few degrees above normal through the remainder of the week. Breezy north winds later today through early Saturday. A cool weather system will bring some showers and cooler temperatures Sunday through midweek with a slight chance of north Sacramento valley thunderstorms Sunday. Minor snow impacts possible over the Sierra Monday.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Hanford Weather:

High pressure will continue to provide dry weather and above normal temperatures through the weekend. Temperatures will cool to a little below normal early next week with a chance for light showers, mainly over the mountains.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

High pressure aloft over the eastern Pacific Ocean will keep a warm and dry air mass in place through the weekend. A trough of low pressure originating from the Gulf of Alaska will move into the region early next week and bring a cooler, cloudier and unsettled weather pattern through much of next week.

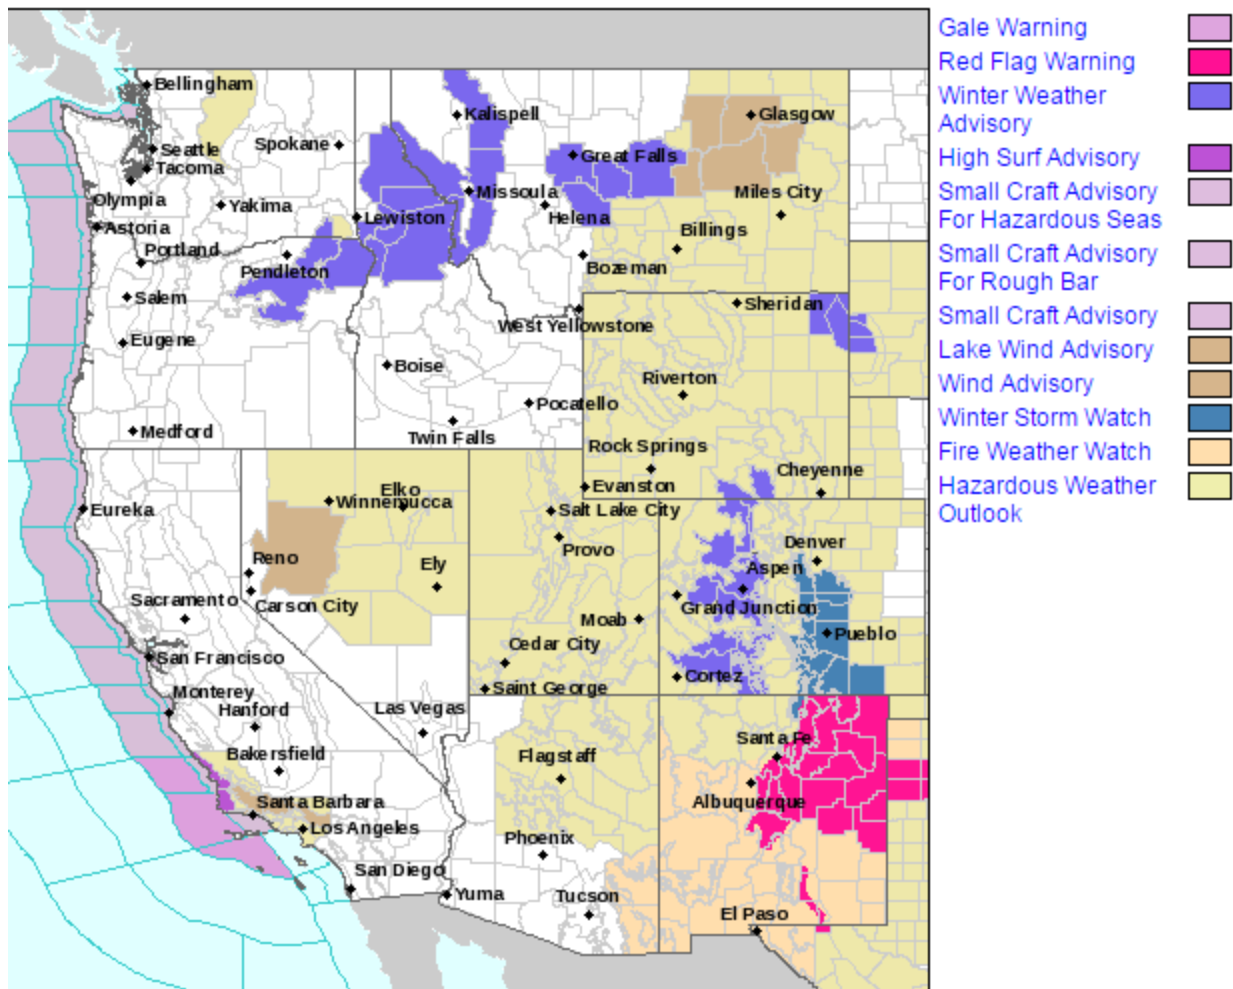

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

A ridge of high pressure will hold firm across southern California through the weekend before the region becomes under the influence of a trough forecast to develop and move southward across the western U.S. during the early to middle part of next week. The result will be a transition from fair and warm weather this weekend to an unsettled and cool pattern next week.

Southeast California Weather:

Fair weather and warmer temperatures can be expected today before a slight cool down and breezy north winds arrive on Saturday. Expect warmer conditions again on Sunday before an unsettled weather pattern develops next week with cooler and windier conditions as well as chance for showers across the southern great basin.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 62 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 28 Counties: Butte, Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

CAL OES MISSIONS

Cal OES Law Missions

2016-LAW-22067, 3/24/16 @ 1830 hours: A Riverside man who was boating with his four children Sunday, March 20th, 2016, at Riverside's Lake Perris Recreational Area disappeared into the water after rescuing his 8-year-old son who had fallen overboard. The Riverside County Sheriff's Department dive team has continued to search for the victim. The lake's size, murky waters and uncertainty about where the victim drowned is making the search difficult. The surface area of Lake Perris is about 2,000 acres with a circumference of 12 miles and 65 feet deep. Riverside Sheriff's Department is requesting a K9 Water Cadaver dog to assist with searching and recovering the victim's body on Friday, March 25, 2016. CA OES K9 Coordinator located an available SAR K9 Water Cadaver team from Los Angeles who will assist on this mission. **Mission On-Going.**

California Specialized Training Institute

CSTI Scheduled Training

Centers for Disease Control and Prevention
CDC 24/7: Saving Lives, Protecting People™

CSTI on the web

Environmental Health Training in Emergency Response (EHTER)

This new course trains participants to identify problems, hazards, and risks; plan for team response; select appropriate equipment and instrumentation; perform required tasks using environmental health response protocols; and report and participate in follow-up activities as instructed. Most of the course involves hands-on operation practice and response to simulated events. [Course Information](#)

Target Audience/Disciplines

- Individuals currently serving as Environmental Health Responders assigned to a local, State, Territorial, or Tribal Emergency Response Team, performing environmental health tasks in emergencies and disasters.
- FEMA covers all training costs (travel, lodging, and meals) for state, local, and tribal responders taking the course.
